

Optimize Your Salesforce Pipeline

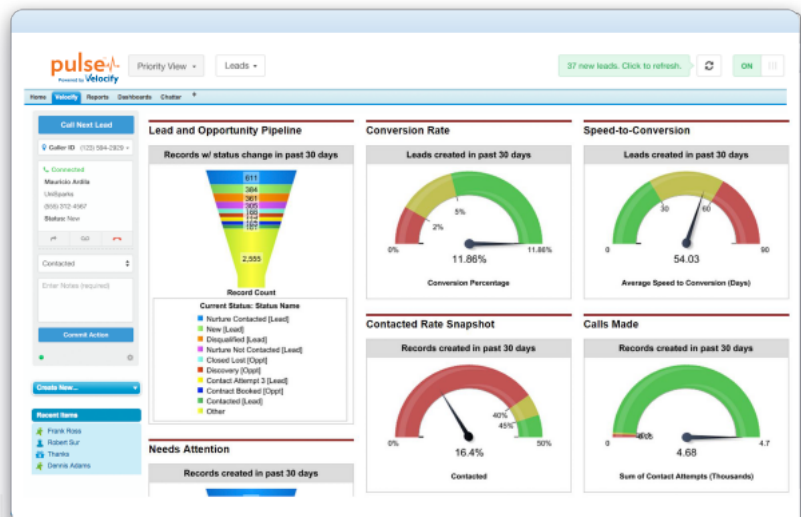

Without complete visibility into your sales cycle, you lose the ability to control your own destiny by continuously optimizing your sales processes and behaviors of your team.

Velocify Pulse ActivityInsights™ enables sales teams to immediately access and analyze what’s really going on in the early sales cycle – from the broader campaign down to the individual performance level.

ActivityInsights dashboards provide a holistic view of your sales pipeline enabling you to understand what activities are driving your highest performers’ successes, drill down to address specific issues, and isolate opportunities to refine your sales processes to best suit your team.

- Access comprehensive dashboards for immediate insight into contact, qualification, and conversion metrics
- Quickly isolate opportunities and bottlenecks in the sales workflow
- Get granular insight into your team’s performance to find out which reps are keeping up with their pipelines and which reps are lagging behind
- Build custom reports to slice and dice your data based on your business needs
